Personal Consumer Loans

Policy CP-PL-004 · Version 2.1 · 12 March 2026

1. Scope

This policy covers unsecured personal loans from 1,000 EUR to 30,000 EUR, with a term of 6 to 84 months, for salaried and retired clients.

2. Application

The branch advisor records the application: client identity, employer, net monthly income, existing monthly debt payments, the amount and the term.

The advisor collects a valid ID document, the last three payslips or the pension statement, and a bank statement of the last three months. An incomplete file goes back to the advisor within 24 hours.

3. Eligibility rules

The client is 18 to 75 years old at the end of the loan.

The debt-to-income ratio, including the new monthly payment, does not exceed 35 percent of the net monthly income.

The client is not listed in the national credit register for unpaid debts.

4. Credit assessment

The credit analyst checks the documents and computes the debt-to-income ratio within 48 hours. The analyst gives a favorable or an unfavorable opinion. An unfavorable opinion ends the application with a refusal letter.

5. Approval limits

Up to 15,000 EUR, the credit analyst approves. Above 15,000 EUR, the risk manager approves or refuses within 48 hours. The risk manager can send the file back to the analyst for more information.

6. Compliance

Before the contract, the compliance officer runs the anti-money-laundering check within 24 hours. A positive match blocks the loan.

7. Contract and disbursement

The client signs the loan contract at the branch. The back office checks the signed contract and pays the funds to the client account within 24 hours.
